ABSTRACT

This publication provides a compilation of statistical information covering fall, 1994 enrollments in Pennsylvania colleges and universities. The source of the data is an annual survey of Pennsylvania colleges and universities with a response rate of approximately 99 percent. An overview notes that a total of 622,000 students were enrolled including the 92 private licensed schools in Pennsylvania authorized to grant specialized associate degrees as well as the state's 145 colleges and universities. Tables and figures present data on: (1) high school graduates and college first-time freshmen enrollments, 1985 through 1994; (2) percentage of high school graduates and college first-time freshmen enrollments by race, 1984 and 1994; (3) fall enrollments by race, 1984 and 1994; (4) percentage of high school graduates and college first-time freshmen by sex, 1984 and 1994; (5) fall enrollment by level and sex, 1984 and 1994; (6) fall enrollments by type of institution, United States and Pennsylvania, selected years 1984 through 1994; (7) fall enrollments by institutional category and sex, 1994; (8) percentage of fall undergraduate enrollments by sex, 1984 through 1994; (9) fall enrollments by institutional category and race, 1994; (10) percentage change in higher education fall enrollments by state, 1988 to 1992; and (11) state's share of total U.S. higher educational fall enrollments, 1992. Appendices provide additional detail on fall enrollments by institutional category, sex, level, and race as well as a glossary and notes on sources and nonrespondents. (DB)

OVERVIEW

This publication provides a compilation of statistical information covering fall enrollments in Pennsylvania colleges and universities. In the past, these statistics have proven to be of interest and value to educational researchers, administrators, government officials, media representatives, business leaders, and other interested individuals. This publication contains information on a variety of aspects of fall college and university enrollments, including total enrollments for each college and university, sex, race, and level of enrollment.

The source of this data is an annual survey of Pennsylvania colleges and universities. The response rate for this survey was approximately 99%, with estimates provided for nonresponding institutions. National data was drawn from the results of surveys conducted by the U.S. Department of Education, National Center for Education Statistics (NCES).

In addition to the 145 colleges and universities, there are private licensed schools in Pennsylvania authorized to grant specialized associate degrees in business and technology (ASB and AST). In 1993-94, the latest year for which data was available, there were 92 schools with this degree-granting authority. These schools enrolled 50,265 students who were in pursuit of either the ASB or AST degree at that time. This figure, if coupled with college and university students, would place the number of people pursuing a postsecondary degree at approximately 622,000.

1994	118,509	94,867	.80

1/ Includes estimated data for the Thaddeus Stevens State School of Technology.

Decreases in the number of high school graduates in Pennsylvania were directly reflected in college first-time freshmen enrollments over the past decade. However, the ratio of college first-time freshmen (which includes in-state, out-of-state, and nonresident aliens) to Pennsylvania high school graduates increased from .65 to .80. In 1994, the first-time freshmen enrollments decreased by 97. By category, decreases occurred in the community colleges, private state-aided institutions, private colleges and universities and private two-year colleges.

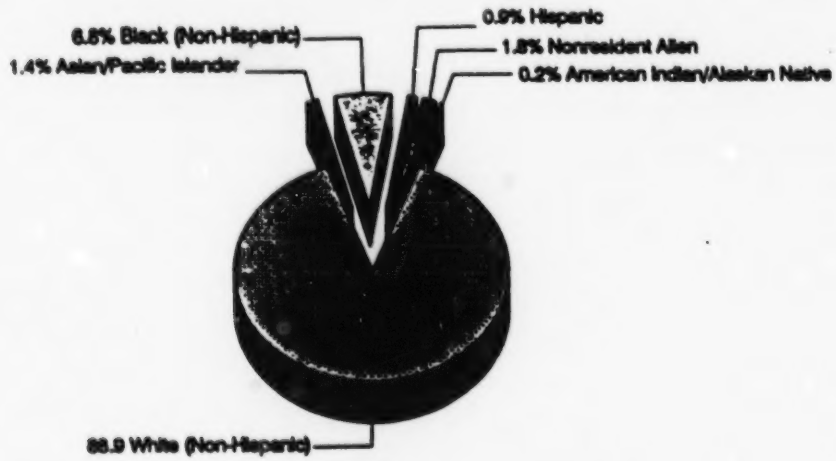
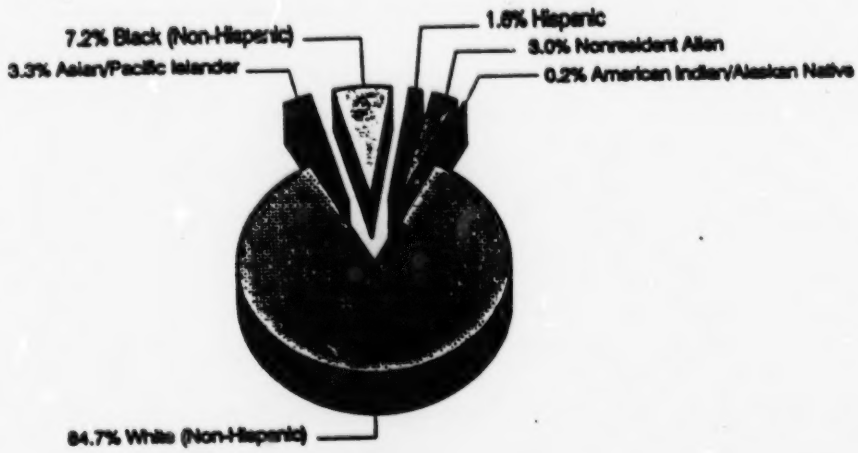
1984 AND 1994



1984



1994

Decreases in the number of high school graduates resulted in a percentage decrease of white enrollments between 1984 and 1994. However, the percentage of black enrollments in Pennsylvania colleges and universities increased in line with their increased share of high school graduates. Asian/Pacific Islander, Hispanic and nonresident alien enrollments increased significantly during this period.

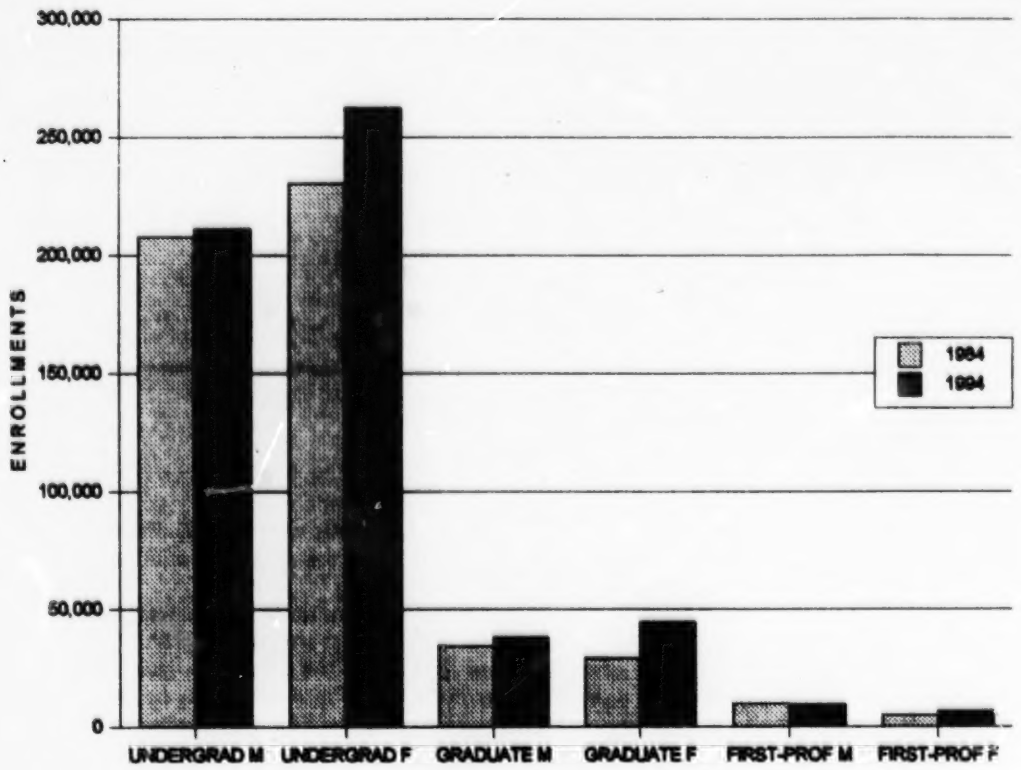
FALL ENROLLMENT BY LEVEL AND SEX
1984 AND 1994



Since 1984, in Pennsylvania colleges and universities, the percentage increase in female enrollments at each level exceeded that of their male counterparts. Specifically, female undergraduate enrollments increased 14.0%; graduate, 53.9%; and first-professional, 35.7%. Comparatively, male undergraduate enrollments increased only 1.5% and graduate, only 10.5%. Male enrollments at the first-professional level actually decreased by 2.5%. During the past year, in spite of decreases in the total enrollment, enrollments in graduate and first-professional programs continued to increase both for males and females.

...with the exception of the state school of technology, state universities had the highest percentage of full-time enrollments in 1994...

State School of Technology	456	434	100.0	0.0	22	100.0	0.0

With the exception of theological seminaries, all categories of colleges and universities showed a decline in enrollments for 1994. Specifically, private two-year colleges had the largest decrease (6.5%) followed by community colleges (3.8%). Other categories showing a decline were: state school of technology (1.7%); state universities (1.4%); state-related commonwealth universities (1.2%); private colleges and universities (0.6%); and private state-aided institutions (0.4%). Theological seminaries enrollment increased by 1.1%.

While enrollments have decreased, the percent attending full-time has increased since 1993. This holds true for all institutional categories and by sex except for males at community colleges and both sexes at theological seminaries.

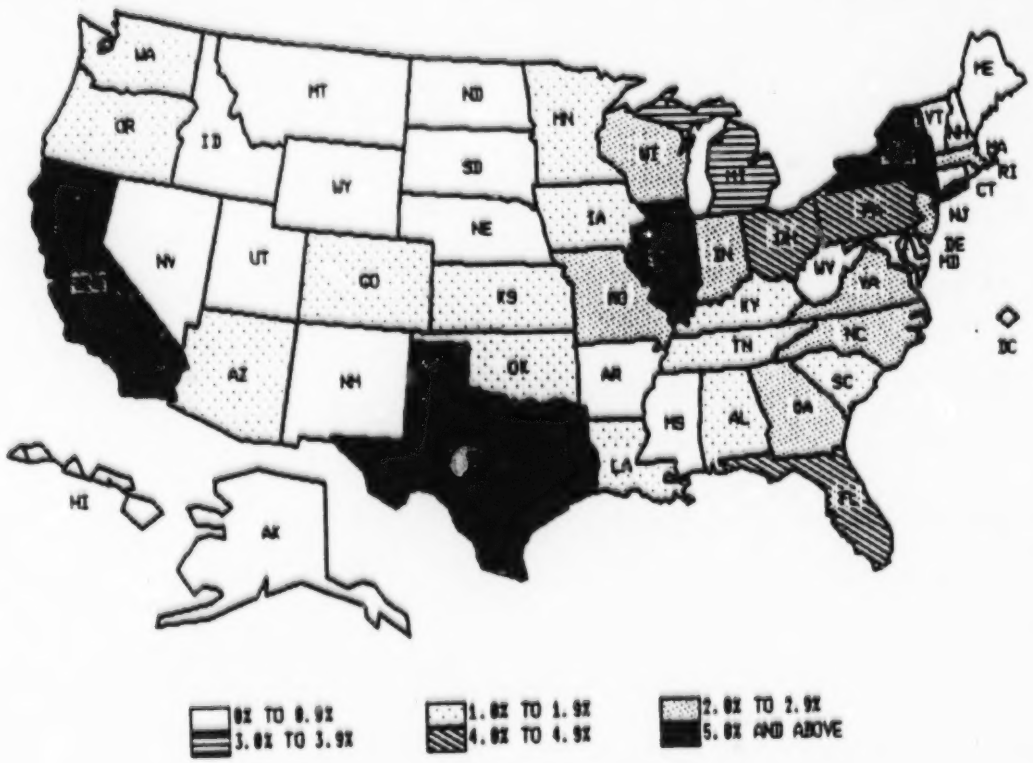
Overall, the percentage of minority enrollments increased from 11.8% to 12.3% during the past year. With the exception of state universities and theological seminaries, the percentage of minority enrollment increased in all institutional categories in 1994. The percentage of minority enrollment in state universities remained unchanged, while the minority enrollment in theological seminaries decreased slightly from 19.5% to 19.4%.

Among all enrollees, blacks in 1994 were 7.2% (up from 7.0% in 1993); Asian/Pacific Islanders, 3.3% (up from 3.1%); Hispanics, 1.8% (up from 1.5%); and American Indian/Alaskan Natives, 0.2% (unchanged). Nonresident aliens were 3.0% (up from 2.9%) of the total enrollments.

FIGURE 5

STATE'S SHARE OF TOTAL U.S. HIGHER EDUCATION FALL ENROLLMENTS
1992



Of all the states, California (13.6%) had the highest share of total U.S. fall enrollments followed by New York (7.4%), Texas (6.5%), Illinois (5.2%) and Pennsylvania (4.4%). The states with the lowest share of enrollments were Alaska and Wyoming, each with 0.2%.

Note: Enrollment data for the Thaddeus Stevens State School of Technology was included starting in 1990 because Act 211 of 1990 authorized this school to grant associate degrees.

BLACK (NON-HISPANIC) - A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

HISPANIC - A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

WHITE (NON-HISPANIC) - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

OTHER DESCRIPTIVE CATEGORY

NONRESIDENT ALIEN - A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. Nonresident aliens are reported separately rather than in any of the five racial/ethnic categories described above.
